

Assignment | SVAP

SUBMITTED BY: SHASHANK SHEKHAR

- I have taken the dataset from data.gov.in
- The dataset which I chose is from Agriculture domain and is about the KCC i.e. Kisan Call Centre.
- The Dataset has various fields about the query asked by the farmers and their sector, type, and other factors
- The data I chose is about Delhi region.
- The questions which I am trying to answer here are as follow:
 - o What are the top 5 QueryType asked in each Category.
 - o Based on Sept month Data, can we predict the top KCC's queryType for October
 - o Which district gets most/least number of calls and under what category.
- I have applied the framework below in achieving the result
 - o Frame
 - o Acquire
 - o Refine
 - o Transform
 - o Explore
 - o Model
 - o Communicate the insight
- R code File Name: ShashankShekhar_Aug_SVAP_Asmt_R2.Rmd
- R code O/P: ShashankShekhar_Aug_SVAP_Asmt_R2_Output.pdf
- The Dataset can be found at https://github.com/shekhar-shanky/Structuring_Visualizing_Analytics
- I have created few visualizations to achieve the goal
